ROOM REFRESHERS

DELIVERING GUEST SATISFACTION
DEFINING THE SMELL OF CLEAN

Your guests’ first impression of cleanliness is often what they smell, not what they see! Even the most meticulous housekeeping practices don’t always provide that final essential trait of a truly clean space: it “smells” clean.

Our professional room refreshers are specifically designed to neutralize odors while providing a pleasant and subtle, yet lasting clean scent. Guest scores and industry rankings use “room smell” as a key measure for room satisfaction.

Consistently deliver the best first impression your guests expect and see the results in your scores. Your housekeeping staff will thank you too.
